

# Nothing Beats

## There's no beating taste and quality.

Harvest wieners are made using only high quality Western Canadian beef with a unique blend of spices that contain no by-products, soya plant extenders or added monosodium glutamate. They are smoked using natural hardwood chips and no artificial chemical sprays or dips are used to obtain the smoked flavour.

The smoked aroma is enticing in Harvest's natural casing smokie, making it a delicious, mouth watering favourite. Prime cuts of pork and beef mixed with peppery spices are smoked with real hardwood to make this golden specialty a popular item.

Harvest's Bratwurst sausage is made using an authentic 'Old Country' recipe. It contains only lean pork and is seasoned with a very special blend of herbs and spices to bring out the authentic Bratwurst sausage taste. It is stuffed into a natural pork casing that is gently cooked. The finished product is fully cooked but remains whitish in color because it contains no cure. However, when heated on a grill or in a skillet, it turns a delicious golden brown.

Regardless the preference, Harvest has the quality meat wiener to satisfy every taste!

A long standing tradition of quality...

The Harvest tradition of producing only the finest quality meat products dates back to the 1920's when Alexander Propp started making sausage in the village of Rhein, Saskatchewan. That tradition continues to this day at Harvest Meats because we know, that premium, quality products keep your customers coming back.

...continues to this day.
