

ugolini

THE BEST INGREDIENTS DESERVE THE BEST EQUIPMENT BECAUSE QUALITY GENERATES REPEAT BUSINESS

Profit from today's hottest beverage trend by introducing your customers to the Glacier Ground™ brand. Harlan's frozen cappuccinos and

smoothies will do more to increase your beverage station sales and reach your profit potential. With unprecedented merchandising support designed to pull customers in, great flavours to bring them back again and again and the best in equipment, you'll be doing the chillin' with some 'extreme cool' profits!

Why Ugolini?

Patented Hollow Evaporator:

- Fastest freeze down times in the industry because the product is in contact with two evaporative surfaces.
- Allows you to get more product into a smaller bowl.
- Makes the product consistent every time due to proper mixing by the only dual auger system available.
- Ice crystals will be consistent size, resulting in a perfect, consistent product.
- Because our machine is more efficient, we use a smaller compressor. This results in a smaller machine footprint - taking up less of your counter space.

Patented Magnetic Drive System:

- Eliminates seals on the drive system. No replacement of drive seals.
- Eliminates costly freeze up repairs. Gear motor and auger will not break on freeze ups. In fact you can fill our machine with pure water, in the freezing mode, without damaging the machine!
- Eliminates leakage problems.

NO Holes + NO Seals = NO LEAKING

- Extremely easy to clean and maintain.

No Waterlines Required!

HARLAN FAIRBANKS
